

From: _____

To: Eugene Water and Electric Board (EWEB) Commissioners: John Brown, Steve Mital, Dick Helgeson, Sonya Carlson, John Simpson (if after 1/8/19: Mindy Schlossberg); all agents, officers, employees, contractors and interested parties. Revised 12.3.18.

500 East Fourth Avenue Eugene, OR 97401

This is NOT an opt-out letter.

DO NOT Install ANY Digital Meter.

NOTICE OF OBJECTION AND NON-CONSENT

Notice to agent is notice to principal; notice to principal is notice to agent. This letter is legal notification from an EWEB account holder and Ratepayer-Owner to all its commissioners officers, employees, contractors.

I waive the alleged benefits of having a digital meter, and of being in any manner connected to the Advanced Smart Meter Infrastructure.

I will retain and use electro-mechanical ANALOG meters exclusively.

I therefore do not consent and do object to having any installation or attempted installation of any type of digital electric/water meter anywhere on the property where I reside or pay the utility bill (if I am a tenant) now or in the future. If a digital meter has already been installed on my place of residence, I instruct you to have it immediately removed/replaced with a new/certified refurbished ANALOG meter.

In the event that my ANALOG electric or water meter should fail to function in the future, I instruct you to replace them only with new or certified refurbished electromechanical ANALOG meters. I do not consent to replacing failed analog meters with any digital meter in the future. I do not consent to being charged any fee or fine now or in the future for my choice of retaining ANALOG meters.
